Safe and effective ovulation induction therapies to stimulate egg release for women with irregular cycles.

In Vitro Fertilization (IVF)

We are an **Advanced Infertility Clinic in Calicut**, offering world-class IVF treatments with excellent success rates.

Intracytoplasmic Sperm Injection (ICSI)

A highly effective fertility treatment where a single sperm is injected into an egg, increasing fertilization chances.

Embryo Transfer

Performed with precision as part of IVF cycles to ensure higher success.

Fertility Preservation

Cutting-edge techniques for couples, cancer patients, and women delaying motherhood.

High-Risk Pregnancy Care

Specialized care for mothers experiencing high-risk pregnancies.

Sexual Medicine

Addressing sexual health concerns that may impact fertility.

3D Ultrasound

Advanced imaging for accurate diagnosis and treatment monitoring.

Micro TESE

Microsurgical testicular sperm extraction for men with azoospermia.

Recurrent Pregnancy Loss Clinic

Expert evaluation and treatments for couples experiencing repeated pregnancy loss.

Fertility Enhancing Surgery

Minimally invasive surgeries to correct conditions affecting fertility.

Diagnostic Hystero Laparoscopy

Advanced diagnostic laparoscopy and hysteroscopy for accurate detection of fertility-related conditions.

Percutaneous Epididymal Sperm Aspiration (PESA)

Minimally invasive sperm retrieval for men with blockages or absence of sperm in semen.

Testicular Sperm Extraction (TESE)

Advanced male infertility treatment involving sperm retrieval from testicular tissue.

Fetal Medicine

Specialized fetal care ensures the health and safety of both mother and child.
